

GÖTTI SWITZERLAND / COLLECTION FALL 25

# Wenke and Waid Show one's colors

**WENKE and WAID – two glasses that make a fashion statement. Iconic. Expressive. Timelessly modern. Powerful designs meet exciting color combinations – delicate pastel shades, transparent nuances with poetic color gradients.**

The new interpretations of classic 70s eyewear impress with their clean lines and uncompromising design. A stylistic bridge between the past and the present. Embodied in a unique, feminine shape and a masculine aviator shape with a double bridge. Hand-polished acetate meets Swiss precision: the frame has a pure and striking appearance with gently rounded edges, effortlessly combining structure and lightness. The striking rim? A subtle throwback to the originals – and at the same time a powerful style statement.

WENKE and WAID play with contrasts and sophisticated color combinations: transparent olive meets mocha, or turquoise on soft pink. A combination of several transparent colors and a darker top coat. The light creates a fascinating world of colors that looks different from every angle.
